Semester I self-study timetable

B.ASLP · 12 November to 10 December 2026

Department of Audiology and Speech-Language Pathology
Yenepoya (Deemed to be University), Mangaluru

University theory examinations commence on 11 December 2026 (YU/COE/Exam/Notification 1/Dec/2026, dated 06.11.2026). This booklet is the first-year plan for B1.1, B1.2, B1.3 and B1.4. It is the self-study clock, not the examination timetable. The paper order will be intimated by the Controller of Examinations.

The four theory papers

B1.1 Introduction to Speech-language Pathology
Theory 50 + IA 25

B1.2 Introduction to Audiology
Theory 50 + IA 25

B1.3 Anatomy and Physiology of Speech and Swallowing
Theory 50 + IA 25

B1.4 Anatomy and Physiology of Hearing
Theory 50 + IA 25

How a class day is built

College is 8:30 am to 3:30 pm, with lunch from 12:30 to 1:30. The hostel bus leaves at 8:10 am and returns at 3:40 pm or 4:10 pm. Grey rows are college, meals, the bus and breaks. Rose rows are self-study. On a class day that is about three hours: a morning recall, then two evening sittings.

Class-day clock: 6:15–7:00 am recall, then 5:15–6:25 pm and 6:40–7:25 pm on the main paper, and 8:05–9:05 pm on the paired paper.

Other kinds of day

Sunday. Two papers, done by 4:30 pm. The evening is free.
Friday 27 November. Confirm Kanakadasa Jayanti on the University list. If class is held, use the class-day clock.
7 to 10 December. A full paper in the morning and a timed set in the afternoon. On 10 December, stop new work at 4:00 pm.

Keep these in front of the clock

1. This timetable is for Semester I theory only: B1.1, B1.2, B1.3 and B1.4. B1.5 and B1.6 stay on the practical and clinical roster.
2. College is 8:30 am to 3:30 pm, with lunch 12:30 to 1:30. The hostel bus leaves at 8:10 am. Self-study does not replace a class or a posting.
3. On a class day you study 6:15 to 7:00 am, then 5:15 to 7:25 pm and 8:05 to 9:05 pm. That is about three hours. Sundays and 7 to 10 December are longer.
4. You still need 50% in the theory paper, and also in internal assessment, practicals and the clinical examination.
5. The paper order is not out yet. When it is published, keep these topics and move the 7 to 10 December camp so each paper's full day falls just before that paper.
6. 10 December: last new work ends at 4:00 pm. Pack the hall ticket, identity card, pens and water, and sleep.

The night before

10 December, then the morning of 11 December

1. New reading ends at 4:00 pm on 10 December. The evening is for the hall ticket, not a new chapter.
2. Pack the hall ticket, identity card, pens, pencil, eraser and a bottle of water before you sleep.
3. Sleep. A chapter opened at midnight will not raise a 50-mark paper.
4. On the morning of the first paper, read only the one-page map of that paper.
5. If the published order starts with a different paper, swap 7 to 10 December. Keep the earlier days as they are.
6. Clinical postings on examination days follow the department notice.
7. You still need 50 percent in the theory paper, and also in internal assessment, practicals and the clinical examination. Attendance stays 80 percent in theory and 90 percent in clinicals.

Prepared for the Precision Clinicians, first year, from the RCI curriculum (academic session 2024-25) and the Controller of Examinations notification dated 06.11.2026. Class coordinator: Mr. Hemaraja Nayaka S.
